The Student One-Pager

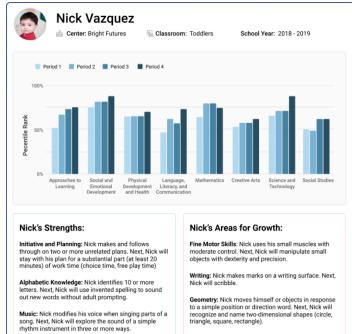

OVERVIEW

The Student One-Pager synthesizes student development into a concise one-page summary. A graph at the top shows student performance across the eight COR Advantage learning domains:

- Approaches to Learning
- Social and Emotional Development
- Physical Development and Health
- Language, Literacy, and Communication
- Mathematics
- Creative Arts
- Science and Technology
- Social Studies

The Report also highlights the student's areas of strength and areas to grow, while also showing student performance relative to peers of the same age.

Nick has shown great progress! To help Nick improve in writing, provide him with plenty of time to practice his writing in real-world settings. For example, before going to the grocery store, Nick can help write the grocery list. To help Nick with his geometry skills, name the shapes you see in the environment around you. For example, when driving in the car, name the shapes of different signs and ask Nick what shapes he sees.

AREAS OF STRENGTH AND GROWTH

The Report will capture your student's three areas of strength and three areas of growth. These are based on the observations teachers capture.

The first sentence will outline what skills your child is currently demonstrating in the classroom, while the next sentence will outline what your student will do next.

PERCENTILE GRAPH

A chart shows the student's percentile performance for by learning category compared to students

COMMENTS

Comments:

Teachers may include a general comment summarizing student development!
